

# Youth Pathways Programs

**From interactive simulations to hands-on training, our programs provide unique opportunities for youth to explore potential career paths.**

The Youth Pathways Programs, are series of engaging and educational programs designed to introduce students to the exciting world of emergency health services. Whether curious about the daily life of a paramedic or ready to dive deeper into emergency response, our structured experiences are tailored to different grade levels, offering valuable skills and insights at each stage.

## **Grade 9: Day in the Life of a Paramedic**

Experience a day in the life of a paramedic, exploring their responsibilities, essential skills, and daily challenges.

- Interactive simulations
- Basic first aid training
- Q&A sessions with paramedics

This school-sponsored event offers students a firsthand look into the world of emergency medical services.

## Grade 10: Paramedic Youth Camp

Immerse yourself deeper into the field of paramedicine with our engaging youth camp.

- Hands-on CPR training and AED certification
- Stop the Bleed tourniquet training
- Naloxone training

This 2-day/1-overnight school-sponsored camp fosters teamwork, leadership, and critical thinking. Students leave with practical skills to enhance their resumes.

## Grade 11 and 12: High School EMR Course

Elevate your knowledge with our comprehensive Emergency Medical Responder (EMR) course, a post-secondary JIBC course taught by your high school faculty.

- Basics of anatomy and physiology
- Emergency response protocols
- Practical skills training

Prepare for EMR certification, paving the way for entry-level roles in emergency medical services and healthcare.

## Youth Observer Program (Ages 17-18)

Join our [Youth Observer Program](#) and step into the action alongside experienced paramedics.

Feel the adrenaline when the pager tones sound, and gain hands-on experience with:

- Scheduled ride-along shifts in ambulances
- Mentorship from seasoned professionals
- Gain valuable insights, leadership skills, and networking opportunities. Determine if this career path is right for you.
